■ Machine learning

Profile

I'm currently pursuing a degree in Artificial Intelligence and Machine Learning, driven by a passion for robotics and coding. With a strong technical foundation and skills in Python, Java, HTML, CSS, Laravel, Django, and Microsoft tools, I develop adaptive systems and software. I'm also active in social groups like Younglife UZ and Robotics UZ to enhance my social and collaborative abilities.

Education

**BSc HONOURS ARTIFICIAL INTELLIGENCE
AND MACHINE LEARNING**
UNIVESITY OF ZIMBABWE

2022 - Present

Projects

**Generative/AI powered chatbot and Rule
based chatbot**

May 2024 - Jun 2024

Due to the high volume of messages on our WhatsApp and Facebook business accounts, I developed chatbots to automate conversations, these are now actively used by Pace College. You can check on <https://wa.me/263786140418?text=hie> Pace College facebook page messenger and on Pace college website.

Websites

Jul 2024 - Sep 2024

[Laravel\(PHP\)](#), [html](#), [css](#) and [javascript](#)

I also developed a websites to enhance my coding skills across different fields and integrated a chatbot to automate interactions. One of the site is now used by Pace College and 2 more others still yet to be launched. pacecollege.co.zw

School fees Payment system

Mar 2025 - May 2024

[Django\(Python\)](#) and [Postgresql](#)

I also identified a problem in fees record keeping and payments, and developed a system to automate the process. I launched the 1st product for use on 1 May at Pace College.
